Air Freight

"Innovative and cost-effective freight solutions"

Our expertise in time-definite shipments allows us to make the best use of our air transportation services and meet tight deadlines. This is just one of the many ways in which our air freight solutions help your business soar.

- Multi-modal Transport Operator (MTO) service for both air-sea and sea-air combinations
- Time definite shipments to ensure no delays
- Peak season charters for uninterrupted transportation on busy domestic and international trade corridors
- Close supervision during loading and unloading cargo

Ocean Freight

"Thorough knowledge of documentation and optimum routes."

Our strength lies in our thorough understanding of the documentation required; carrier schedules, optimum routes and minimum waiting time at ports. Our sea freight experts ensure not only a smooth flow of cargo but also make sure that you benefit from our customer-oriented services.

- Thorough understanding of documentation especially for emerging markets. Consolidation of multiple consignments in one container via global LCL network
- Strategically located gateways for frequent connections to and from any established, as well as emerging markets.
- Consolidation of multiple consignments in one container via global LCL network
- Cost-effective and door-to-door services for LCL shipments with competitive transit times and outstanding schedule reliability
- Selection of carrier that fits individual business needs perfectly

Customs Brokerage And Compliance

"In-depth knowledge of international trade rules."

Some international customs legislations are difficult to handle. For instance, the Australian customs legislation charges a penalty for erroneous reporting. 20Cube Logistics has experienced Customs Brokers with in-depth knowledge of the rules that govern international trade. And hence we can meticulously manage your customs and quarantine hurdle formalities.

In addition, we also offer a range of related services that includes:

- Customs valuations
- Tariff and duty concessions
- Enhanced Project By-Law Scheme (EPBS)
- Customs audit
- Legal onuses to customs, quarantine and taxation authorities
